

§ 457.118

(c) The total production (pounds of sugar) to count from all insurable acreage on the unit will include:

(1) All appraised production as follows:

(i) Not less than the production guarantee for acreage:

(A) That is abandoned;

(B) Put to another use without our consent;

(C) Damaged solely by uninsured causes;

(D) For which you fail to provide records of production that are acceptable to us; or

(E) On which the sugarcane stubble is destroyed within 15 days after harvest is completed without our consent;

(ii) Production lost due to uninsured causes;

(iii) Unharvested production;

(iv) The difference between the production guarantee and the appraised production for acreage that has an inadequate stand. An appraisal for an inadequate stand will be made if the product of the number of stalks per acre multiplied by two and further multiplied by the percentage of sugar contained in the Special Provisions for this purpose does not equal the per-acre production guarantee; and

(v) Potential production on insured acreage harvested for seed (see paragraph 10.(a)(2));

(vi) Potential production on insured acreage you want to put to another use or you wish to abandon and no longer care for, if you and we agree on the appraised amount of production. Upon such agreement, the insurance period for that acreage will end if you put the acreage to another use or abandon the crop. If agreement on the appraised amount of production is not reached:

(A) If you do not elect to continue to care for the crop, we may give you consent to put the acreage to another use if you agree to leave intact, and provide sufficient care for, representative samples of the crop in locations acceptable to us. (The amount of production to count for such acreage will be based on the harvested production or appraisals from the samples at the time harvest should have occurred. If you do not leave the required samples intact, or you fail to provide sufficient care for the samples, our appraisal made prior to giving you consent to put the acreage to another use will be used to determine the amount of production to count.); or

(B) If you elect to continue to care for the crop, the amount of production to count for the acreage will be the harvested production, or our reappraisal if additional damage occurs and the crop is not harvested; and

(2) All harvested production from insurable acreage. Final records of sugar production will be used to determine the amount of production to count. Preliminary mill estimates will not be used.

7 CFR Ch. IV (1-1-97 Edition)

(d) Harvested sugarcane may be adjusted for low quality if it is damaged by one or more freezes occurring within the insurance period to the extent that it cannot be processed for sugar by the boiling house operation. The amount of production to count for such sugarcane will be determined by dividing the dollar value of the damaged production by the local market price per pound for raw sugar. The prices used for this adjustment will be determined on the earlier of the date such quality-adjusted production is sold or the date of final inspection for the unit.

[60 FR 25602, May 12, 1995]

§ 457.117 [Reserved]

§ 457.118 Malting barley crop insurance.

The malting barley crop insurance provisions for the 1996 and succeeding crop years are as follows:

UNITED STATES DEPARTMENT OF AGRICULTURE

Federal Crop Insurance Corporation

*Small Grains Crop Insurance Malting Barley Price and Quality Endorsement*

(This is a continuous endorsement. Refer to section 2 of the Common Crop Insurance Policy.)

In return for your payment of premium for the coverage contained herein, this endorsement will be attached to and made part of the Common Crop Insurance Policy (§457.8) and Small Grains Crop Provisions (§457.101), subject to the terms and conditions described herein.

1. You must have the Common Crop Insurance Policy (§457.8) and the Small Grains Crop Insurance Provisions (§457.101) in force to elect to insure malting barley under this endorsement.

2. You must select either Option A or Option B on or before the sales closing date. Failure to select either Option A or Option B, or if you elect Option B but fail to have a malting barley contract in effect by the acreage reporting date, will result in no coverage under this endorsement for the applicable crop year. If you elect coverage under Option A, and subsequently enter into a malting barley contract, your coverage will continue under the terms of Option A. Your selection (Option A or B) will continue from year to year unless you cancel or change your selection on or before the sales closing date.

3. You must select either an additional value price election or a percentage of the maximum additional value price election on or before the sales closing date. The percentage of the maximum additional value price election you select does not have to be the same as that selected under the Small
